

「世界トップ大学同士の相互補完的協同教育により、高い倫理性、科学的論理性を修得させ、幅広い学問的素養を身に付けさせ、医学分野、特にトランスレーショナルリサーチにおける倫理と国際的共同研究の組織構築の戦略手法を学ばせること」

“To have students acquire high ethical standards and scientifically logical minds, and become well-versed in a wide variety of academic fields in world-class universities through a mutually complementary collaborative education program. We aim to educate students, particularly in translational research ethics, to adopt strategic approaches to organizing international collaborative research in the medical field.”
